

Energy Management & ISO 50001 Compliance

- W.A.G.E.S Utilities monitoring software

Industrial Energy Management Solution WAGES

WAGES Program Offerings

Energy Audit

Study of utilities & process for Identification of energy saving opportunity by Energy Auditors

Metering & System Integration

Analysis of the existing energy metering for utility & electrical & Design of the additional meters required for proper energy

WAGES Solution Deployment

WAGES Solution Deployment with KPIs, Energy Consumption Dashboards & Consumption Forecast Modelling with Data extraction Connectors

Our Solution Components

Connectors for Data Extraction from Heterogenous sources like Energy Meters, Historians etc

Energy Consumption Dashboard at Line, Plant, Geo & Global Level

Energy Utility KPIs for Water, Air, Gas, Electricity & Steam

AI / ML based Energy Forecasting Models for Assets
